

Integrating drones into business operations may help enhance worker safety, improve decision making, reduce risk and lower costs. Policyholders can receive a consultation from aviation industry experts covering the latest updates in regulatory compliance, pilot training, hardware, software, data analytics, operational safety standards and best practices.

## **EDUCATIONAL PORTAL**

Never miss an advisory or webinar again!

A forum for loss control and risk management education, our portal contains timely advisories, alerts, whitepapers, webinars and best practices checklists.

To login: https://alliedworldrisk.management

educational webinars, web-based courses and state

and federal preparedness online tools.

# SAFETY.BLR.COM®/ENVIRO.BLR.COM®

Online OSHA and EPA regulatory compliance tools including industrial safety training resources, assessment and inspection checklists, federal and state regulatory development notifications and "Ask the Expert" advice.

# PURE™ SAFETY ON DEMAND

PURE™ Safety On Demand is an extensive online library and training management platform with over 700 workplace health and safety courses delivered by UL. These training resources allow employees to stay up-to-date on their areas of expertise and safety protocols.

# SLIP, TRIP & FALL ONLINE RESOURCES

Policyholders receive access to a National Floor Safety Institute (NFSI) web portal that includes slip, trip and fall policies and training programs, an overview of consensus industry standards, educational materials and expert slip, trip and fall advice via phone or email.

## **FLEET SAFETY**

Fleet safety offerings include access to a full best practices review, on-road, online or classroom training, National Safety Council (NSC) distracted driver training, train-the-trainer certifications, vehicle monitoring 24-hour decal programs, driver hazard perception evaluations, Motor Vehicle Record (MVR) continuous monitoring and vehicle telematics including driver coaching.

# ALLIED WORLD'S WORKPLACE SOLUTIONS FOR EPL

Employment Practices Liability (EPL) policyholders receive valuable Human Resource tools, including an employer HELPLINE, HR compliance portal, employee handbook builder, online training courses, updates and alerts.

## **LAWYERS**

Monthly advisories, helpline consults (up to two free hours/year) and online resources including free CLE credits (five hours/firm attorney).

# Professional Liability Policyholders

#### **Directors and Officers**

Receive the "Answering the Call" Resource Guide with necessary information that every director should know about board membership.

#### **Insurance Agents & Brokers**

Educational resources include access to alerts and advisories on hot topics or emerging risks relevant to insurance agents and brokers, as well as webinars on a range of pertinent and timely risk management topics presented by internal and national experts.

# RISK MANAGEMENT OFFERINGS TAILORED TO THE Construction Industry

#### **Construction Risk Assessments**

Desktop, telephone and on-site surveys can be provided during a project to identify risks to employees, third parties and property. Risk assessments include the review of safety programs, contract management, recordkeeping, regulatory compliance, quality control, job site operations and subcontractor management. Compliance and loss control improvement recommendations will be provided.

#### **Detailed Loss Analysis**

A comprehensive review of an insured's loss history can provide insight into loss trends and the root causes of accidents. The findings of the analysis are used to determine the proper corrective measures that should be implemented.

#### **Safety Training**

On-site, classroom and web-based training including OSHA 10 and OSHA 30 is available and can be customized to meet the specific needs of the insured. Additional online resources are available to assist with safety meetings, tool box talks, checklists, forms and regulatory compliance.

#### **Safety Program Review and Development**

OSHA construction safety standards are vast and ever changing. Safety professionals can review existing safety programs or assist with developing new written safety policies, procedures and training requirements based upon current OSHA standards.

Requiring annual pre-qualifications for subcontractors may help mitigate losses. A review of your current subcontractor pre-qualification plan or assistance with developing a new plan can be provided.

#### **OCIP/CCIP Administrative Services**

A wrap-up may be an effective way to exercise more control over a project and may result in a more cost effective risk management program. Wrap-up consultations and management are available from customizing the project specific requirements through the duration of the project.

#### **Whitepapers and Webinars**

Timely and important construction and safety issues are covered on topics including new and pending regulations and standards, emerging technologies and procedures, cost saving measures and industry best practices.

RISK MANAGEMENT OFFERINGS TAILORED TO

## **Cyber Policyholders**

All Cyber policyholders receive complimentary access to Allied World//FrameWRX<sup>SM</sup> — a pre-breach risk management platform that enhances an organization's cyber security awareness, preparedness and ability to respond to an incident/event. Dedicated FrameWRX staff help coordinate the entire process.

#### Allied World Information Portal via eRiskHub

Centralized access to key information related to Allied World Breach Response Services, FrameWRX Services, Risk Manager & CISO Tools and News Center for relevant industry information.

#### **Cyber Knowledge Center**

Features access to online courses supported by a training concierge, advice via a virtual CISO (Chief Information Security Officer), Incident Response Planning resources and cyber fitness check.

#### **Table Top Exercise**

Using a team approach, FrameWRX staff and our dedicated vendor work closely with clients to develop and roll out a tailored mock privacy incident to test their organization's incident response capabilities. By working together prior to a live crisis event, clients can validate their plan, improve decision-making and coordination, and ensure that each member has clarity around their roles and responsibilities.

# 16E642074

#### **Vulnerability Management Platform**

Clients receive personalized onboarding and access to a platform that not only conducts real time scanning to monitor and report vulnerabilities (and recommend fixes), it continues to monitor systems and contact clients should a new risk emerge. Services include monitoring, reporting, vendor risk management, real time prescriptive threat intelligence and more.

#### **Continuous Monitoring And Alerting**

Organizations receive email notifications when vulnerabilities are detected to enhance their threat intelligence.

#### **Social Engineering Simulations**

Customized, guided mock social engineering simulations – email ('phishing') or spoofed phone calls ('vishing') – to evaluate internal awareness, identify areas of susceptibility, and teach positive behavior to reduce exposures. Up to two per policy period.

#### **Mobile Security Self Evaluation**

Assesses mobile security, security controls, policies and procedures, and provides consultation based on the evaluation results.

#### RISK MANAGEMENT OFFERINGS TAILORED TO

## **Defense Base Act Policyholders**

#### **Ergonomic Services**

Certified ergonomists provide studies, analyses of physical demands and job tasks, instructional materials and comprehensive reports detailing business solutions ranging from engineering solutions to tailored videos and handouts.

#### **New Hire and Return to Work Screening**

Medical specialists administer physical capability evaluations prior to employment to determine if an employee can meet the physical demands of a job. If an injury occurs during deployment, the physical capability evaluation is readministered to determine if the employee has the physical capabilities to return to work.

#### **Perception Surveys**

Customized questionnaires allow policyholders to evaluate current workplace safety based on attitudes, perceptions and behaviors in the workplace. Responses are reviewed and then utilized to determine intervention strategies.

#### **Soft Tissue Injury Management**

Electrodiagnostic Functional Assessment (EFA) tools can help identify and locate soft tissue injuries. The information can be accessed after a reported soft tissue injury to determine if it occurred during the scope of employment and to better treat and manage the injury.

#### **Post-Deployment Health Assessment**

Medical specialists can conduct Post-Deployment Health Assessments (PDHA) to assist when losing employees from attrition, government de-scoping of a contract or contract transitions. The PDHA includes a medical questionnaire, a physical and a psychological examination.

#### **Austere Environment Fleet Services**

A customized curriculum can be developed to address vehicle exposures within austere environments. Training and testing in the field is offered to ensure that participants have retained the skills to operate as safely as possible in austere environments.

#### **On-Site Risk Assessments**

An analysis of on-site physical hazards and existing administrative programs is performed to determine gaps that need to be addressed for improvement. A comprehensive report is reviewed with the insured to determine a course of action.

#### **Whitepapers and Webinars**

Timely and important Defense Base Act issues are covered on topics including new and pending regulations and standards, emerging technologies and procedures, cost saving measures and industry best practices.

#### RISK MANAGEMENT OFFERINGS TAILORED TO

### **Environmental Policyholders**

#### **Environmental Risk Assessment**

We are focused on helping our environmental policyholders identify areas of potential liability and providing risk reduction strategies. Our risk management expertise allows us to closely examine an organization's existing risk management programs and protocols and identify potential gaps and areas needing improvement. Environmental risk assessments are performed by a nationally recognized vendor with oversight by Allied World.

#### **Environmental Emergency Response**

In the event of an environmental emergency, policyholders have 24/7 access to an industry leading team of environmental clean-up specialists who can help control damages, mitigate environmental losses and resolve the situation as efficiently and effectively as possible.

#### **Environmental Helpline**

A 24/7 helpline offers access to information regarding Environmental Health & Safety (EH&S) issues, regulatory matters, industry best practices and enforcement proceedings. Calls are generally responded to within 24 hours.

#### **Flash Bulletins**

Summary descriptions and details, with appropriate references and citations, of new or revised EH&S regulations, standards, requirements, and guidelines are distributed to policyholders in the form of electronic Flash Bulletins. These bulletins are sent on an as-needed basis due to the time-sensitive nature of the material.

#### Whitepapers and Webinars

Timely and important Environmental Health & Safety (EH&S) issues are covered on topics including new and pending regulations and standards, emerging technologies and procedures, cost saving measures and industry best practices.

#### RISK MANAGEMENT OFFERINGS TAILORED TO

#### **Medical Professionals**

Our industry-leading Healthcare risk consultants work to identify areas of potential liability and provide strategies that reduce risk within various healthcare settings for our Hospital, Miscellaneous Medical Facility and Organ Procurement insureds.

#### **Clinical Risk Assessments for Hospital Insureds**

In order to identify areas of potential liability and provide risk reduction strategies, risk consultants evaluate an organization's existing risk management program and clinical practices – identifying potential gaps and areas needing improvement.

#### **Policy and Procedure Development**

All insured Healthcare organizations are encouraged to engage our consultative services when redrafting or developing new policies or procedures. We offer assistance with editing and sample policies.

#### **Risk Management Helpline**

Our risk management helpline, dedicated solely to Allied World's medical professional liability clients, provides direct, immediate access to risk management information when the need arises.

#### **Education Programs**

Our consultants provide a broad range of educational options to support or augment individual client risk management initiatives. Issues identified as important to the continuing education of staff, coupled with an analysis of areas of potential exposure and claims history, are some of the elements we utilize to develop ongoing client education programs.

#### **Complimentary Resources**

Policyholders receive a comprehensive list of risk management/ professional responsibility resources annually and are eligible for a complimentary copy of one of these resources each policy year.

## Risk Management Research and Publications for Hospital Insureds

We provide access to industry trends and news through subscriptions to risk management publications produced by experts in the areas of health law, risk management and liability insurance. We will also assist clients with research on risk management issues and standards of care.
