

ACCOUNTABLE CARE ORGANIZATIONS

The foundation of every good risk management program is communication and partnership. We are committed to delivering superior risk reduction programs to Allied World's Accountable Care Organization policyholders. These services are designed to be an integral component of a comprehensive insurance program – adding value beyond simply a policy. An effective risk management/loss control program works to identify potential problems and provide insight during the underwriting process, and also provides insureds with suitable tools and information to avoid or mitigate losses during the coverage term and beyond.

ALLIED WORLD'S WORKPLACE SOLUTIONS

Allied World policyholders who purchase Employment Practices Liability coverage receive the following services at no additional cost:

- **Toll-free Employer HELPLINE:** Seamless access (via phone or website) to experienced employment attorneys from a national law firm, as often as needed.
- **HR Compliance Portal:** Online resource to federal and state Human Resource and employment law news, regulation changes, HR forms, and more.
- **Employee Handbook Builder:** Online, customizable handbook building tool enables users to create a handbook that complies with all applicable federal and state laws.
- **Online Unlawful Harassment Training:** Meets California's AB 1825 requirements, as well as most other state requirements.
- **Monthly HR Express Updates and HR Alerts**

BOARD OF DIRECTOR RESOURCES

Allied World policyholders who select the Directors and Officers coverage option receive a complimentary copy of the book, *Answering the Call: Understanding the Duties, Risks and Rewards of Corporate Governance*. This concise book contains the necessary information that every director should know about board membership.

MEDICAL PROFESSIONAL RISK MANAGEMENT SERVICES

Allied World policyholders who purchase Medical Professional Liability coverage receive the following services:

- **Clinical Risk Assessments:** In order to help medical professional policyholders identify areas of potential liability and provide risk reduction strategies, risk management consultants closely examine an organization's existing risk management program and clinical practices—identifying potential gaps and areas needing improvement.
- **Education Programs:** Education programs are a fundamental component of any risk management program and policyholders have access to a broad range of educational options to support and augment each client's existing risk management initiatives. Issues that the client identifies as important to the continuing education of their staff determine program content and areas of focus. Educational programs are often jointly developed following an analysis of areas of exposure and educational needs through clinical risk assessments, claims history and emerging trends in liability. Our educational programs are a powerful tool to help each client mitigate potential loss, and they reinforce the central role each staff member plays in managing their organizational risk.
- **Risk Management Helpline:** Our risk management hotline, dedicated solely to Allied World's medical malpractice clients, provides direct, immediate access to risk management information when the need arises.
- **Policy and Procedure Development:** Allied World's healthcare clients can receive assistance when drafting new policies and procedures, as well as updating existing policies and procedures. Access to an extensive library of resources and samples is available.
- **Risk Management Educational Portal:** Designed to be a forum for risk management education, our online portal contains timely advisories, alerts, white papers, webinars and/or complimentary resources.
- **Risk Management Research and Publications:** We provide access to industry trends and news through subscriptions to risk management publications produced by experts in the areas of health law, risk management and liability insurance. We will also assist clients with research on risk management issues and standards of care.
