

FOREIGN CASUALTY

As the trend of globalization continues, many U.S. based corporations are maintaining networks of operations that take place outside of the United States, and these companies will increasingly face global exposures and find themselves at risk with a compliant foreign casualty insurance program. Allied World has created a flexible solution for multinational organizations based in the United States, providing locally compliant policy options that are customized to the client needs, while offering risk transfer that is aligned with local legislations, customs, and regulation.
